*What an amazing 10 years it has been at Missile Baits. It is hard to believe it has been that long. It is emotional to think about starting a company from scratch, designing unique baits to catch bass, and then seeing all the bass that our baits have helped people catch. We have been blessed to have a great team at Missile and consider them family. What keeps me going is creating the next bait to help another angler catch that new PB or win a tournament. I want to thank everyone who has helped Missile Baits keep on rolling after 10 years of making serious soft plastics and weapons grade jigs.*

*Bass Wishes!*
