Welcome

Our passion for fishing and pushing product to the next level is stronger now than ever. Among the new 'toys' we're releasing for 2024 are 3 key new ranges. All designed with the angler in mind and supporting the Solar brand ethos for quality, design and function, at Solar we also develop to support you, the retailer, with healthy margins to support you, the fishing-trade's front line;

SP C-Tech Luggage

*If it bears our **SP C-Tech** marque, it means it's the very best we can craft, with no stone unturned, no corner cut. Our brand **NEW SP C-Tech Luggage** is hewn from **G-Text**, Solar's very own recycled, hi performance fabric, armoured in our revolutionary SolarCam.*

Happiness is a Solar Bedchair

*Our new range of Bedchairs, Sleep Systems and Chairs is headed up by the **New SP C-Tech Bedchairs and Sleep Systems**. Lavishly appointed in 60mm Memory Foam with no expense spared; providing ultimate comfort an performance.*

BlackLite Bankware

*Compact, incredibly good looking and black, the **BlackLite Bankware range** answers the call for the beauty and functionality of our Stainless in a lightweight, alloy version... Exactly what you demand. Now headed by the **BlackLite Version of our Worldwide best seller**, The BlackLite Worldwide delivers '**Solar Performance**' at a fraction of the weight. Using Solar's unique ratchet system (which we've kept in our DNA Stainless Steel so as not mark with the extended usage the Pod is designed for), the height is adjustable, along with the length and the width to answer most fishing situations.*

PRODUCTS TIME SP RP

UNI Spider

Uni Spider 0.5m/1.2m Extended Wrap Green (Compatible With Both SP And South Westerly Pro Models)

- Part of our "Solar System" Modular Concept, which means the UNI Spider expands with your fishing
- Converts the UNI Spider bivy into the perfect long-stay shelter
- Acts as a twin skin to improve heat retention and eliminate condensation
- SolarTex 3 Material
- Delivers a bivy-wide 0.5m long porch, perfect for storage, cooking and socialising
- Multiple door/window options via roll-up blind and clear window panel
- Snap-Loc System, magnetic fittings for swift, painless set-up
- Robust, alloy, extending frame
- Complete with hard-wearing, carry bag
- Weight: 6.22kg

Mozzie Mesh Front Door (Compatible With Both SP And South Westerly Pro Models)

- Part of our "Solar System" Modular Concept, which means the UNI Spider expands with your fishing
- Self-closing Snap-Loc magnetic system (another Solar industry first) means the mesh ALWAYS shuts, to totally eliminate bugs getting in

Uni Spider Peak (Compatible With Both SP And South Westerly Pro Models)

- Part of our "Solar System" Modular Concept, which means the UNI Spider expands with your fishing
- Delivers a peak and a thermal layer to eliminate condensation, retain heat and keep you in the dry or shade
- SolarTex 3 Material
- Robust, alloy, extending frame
- Quick, simple attachment (all necessary fittings included)
- Complete with hard-wearing, carry bag
- Weight: 1.24kg

Camo Compact Spider System (Shelter, Infill Panel, Groundsheet)

Compact Spider Heavy Duty Groundsheet

- Heavy-duty, hard wearing construction
- Full, zip-in attachment to completely protect you and your gear
- Quick and easy to zip in/out
- Designed for the SP Compact Spider Shelter
- Durable, heavy-duty zip
- Weight: 8.46kg

Camo Compact Spider Infill Panel

- Made from SolarTex material
- Full, zip-in front infill panel
- Quick and easy to zip in/out
- Featuring our unique Snap-Loc Buckles
- Multiple set-up options, including 'letterbox' style
- Mozzi-mesh door option
- Weight: 1kg

Camo Compact Spider Shelter

- Ultra-adaptable, one man shelter
- Add optional extras to tailor the perfect system
- High-grade, SolarTex Fabric

- Square rear profile allows for maximum internal space and headroom
- Internal condensation cap
- Snap-Loc buckles
- Storm poles included
- Full, mozzie mesh front with Snap-Loc door and zip-in groundsheet available separately
- Lightweight and compact, while remaining spacious and stable
- Solar DNA Metal Spreader Block
- PermaVents

SP Quick-Up Shelter Green MkII With Heavy-Duty Groundsheet

- Improved design for 2023
- The most versatile shelter on the market!
- Perfect for one or two anglers or as a cook/social tent
- Heavy-duty, rip-stop groundsheet
- Quick Up Construction via the Easy-Loc Leg System
- Peak over doors
- Vented Twin Skin Roof with built in climate control vent
- Square footprint maximises usable space
- Front and rear doors
- Made from SolarTex Fabric

SP Quick-Up Shelter MkII Overwrap

- Overwrap for our hugely-popular Quick-Up Shelter
- Compatible with both the Quick-Up MKII model and our original Quick-Up Shelter
- Provides a second skin and also a porch area
- Supplied with an easy-fit bracket (and fitting instructions) for use with our original Quick-Up Shelter
- Supplied with an adjustable tension bar to provide rigidity to the roof of the porch area
- Roll-up front door
- Cut out for access to the rear door (our Quick-Up Shelter has front and back doors!)
- Made from SolarTex Fabric
- Four guy ropes interwoven with reflective cord so you can avoid them at night
- Pack-away guy ropes, for neat and tidy storage easier pack down / set up
- Four Velcro rod ties on the front
- Supplied in a storage / carry bag

SP 6-Hub Cube Shelter

- Made from our SolarTex material
- Set up in less than 1 minute using the Push-Loc Hub design
- 6 sides, creating a huge internal space
- All sides have full-fabric covers which can be rolled up, leaving mozzie mesh sides to suit any situation/configuration
- Heavy-duty groundsheet available separately
- Includes the Solar-first Mag-Loc door system
- 2 doors, one on either side. You can put a biwiy on the back of this shelter
- Doors with removable fiberglass poles for rigidity and conversion into canopies

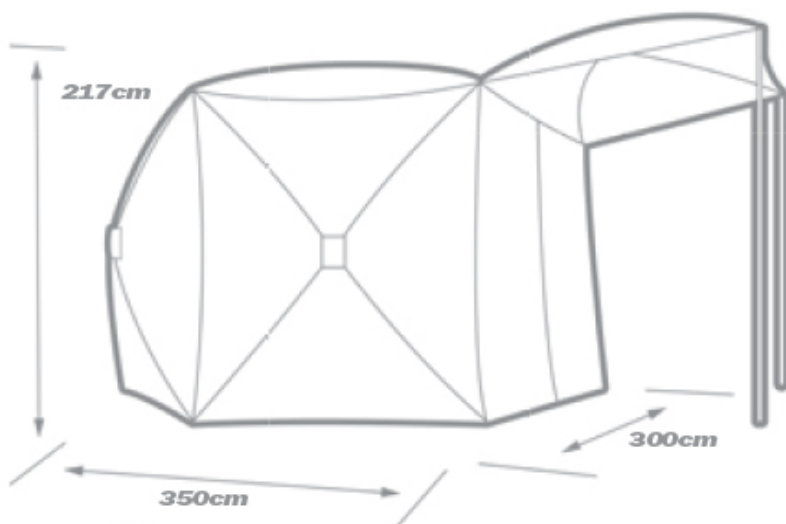

Sets up in less than a minute!

SP 6-Hub Cube Shelter Heavy-Duty Groundsheet

- Heavy-duty, hard wearing construction
- Quick and easy Velcro-in attachment for complete protection

- 16" and 24" adjustable legs with captive thumb screws and new Ground-Probe points.
- The Euro's legs are made from thicker diameter stainless for more strength and stability
- Weight: 6.3kg

P1 Worldwide Pod

- Comprises two upright bridge sections, 4 x 9" legs and a centre bar
- Compact design
- Perfect for ALL terrains
- Highly adaptable
- Micro adjustable in all directions
- Goalpost chassis for total stability
- Made in England
- Complete with carry case

P1 Worldwide Pod (Includes 3-Rod Fixed Buzz Bar)

- Comprises two upright bridge sections, 4 x 9" legs and a centre bar
- Compact design
- Perfect for ALL terrains
- Highly adaptable
- Micro adjustable in all directions
- Goalpost chassis for total stability
- Made in England
- Complete with carry case

P1 Mini Worldwide Pod

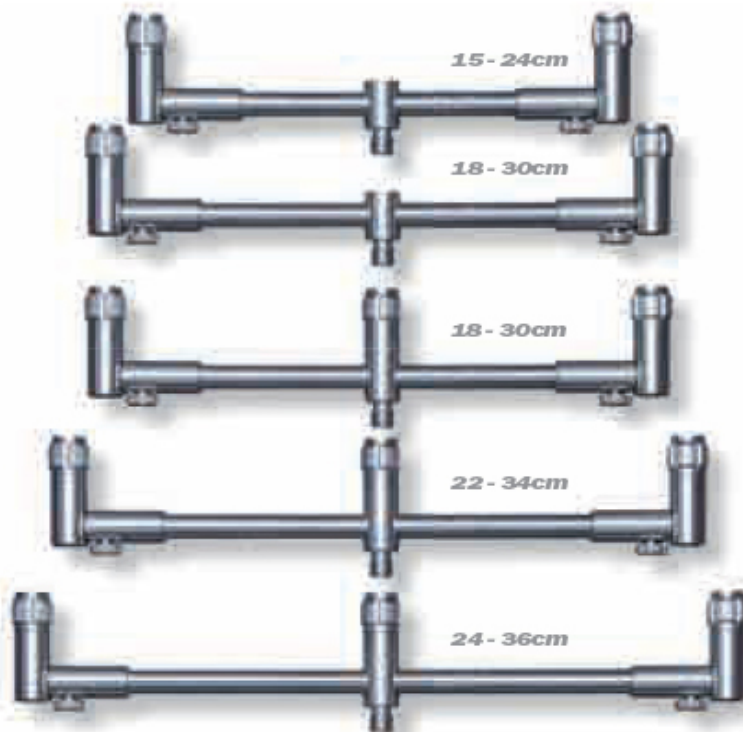

- Solar's World renowned Worldwide Pod in a mini version
- Precision engineered and manufactured in the UK
- Solar's unique ratchet leg adjustment system
- Sold with 4 x P1 stubby legs
- The uprights are tight together, so will fit all Solar buzzer uprights that are 50mm apart
- Front uprights are 85mm high to accommodate alarms. Rear uprights are 130mm high
- Complete with compact, adjustable main bar, which extends from 400mm to 690mm
- Supplied in an SP-style, Solar Worldwide Pod bag
- Weight: 1.8kg

P1 Stubby Pod Legs (pair)

- Ultra-short, 3" (7.6cm) Stubby Legs fit straight onto any Worldwide Pod in place of the 'standard' legs
- For a low-profile set up or to increase the angle at which the pod sits
- Plus, they make the assembly look stunning
- Two non-adjustable legs per pack
- Compatible with all Solar Worldwide Pods

P1 Pro-Loc 2 and 3-Rod Adjustable Buzzer Bars

- Precision engineered, designed and manufactured in the UK
- Captive stainless thumb screw width adjustment
- 3/8" BSF thread, compatible with all Solar banksticks and most others
- Sure-fit, 5-spoke knurled locking collars for perfect alignment of alarms and back rests
- Engraved Solar logo
- Flat underside profile on the inner sections so that the bars can't twist/wobble when extended
- Weight: From 0.18kg

P1 Centre-Loc Adjustable Back Rest Standard and Mini

- Precision engineered in the UK
- Made from high-grade Stainless Steel with anti-slip, rubberised arms
- Quick and easy width adjustment to perfectly suit all rod butts
- P1 5-spoke knurling
- High-grade Stainless Steel
- Designed with 3/8 BSF thread to fit with most banksticks
- Dimensions: 4 x 2.5cm & 2.5 x 2cm

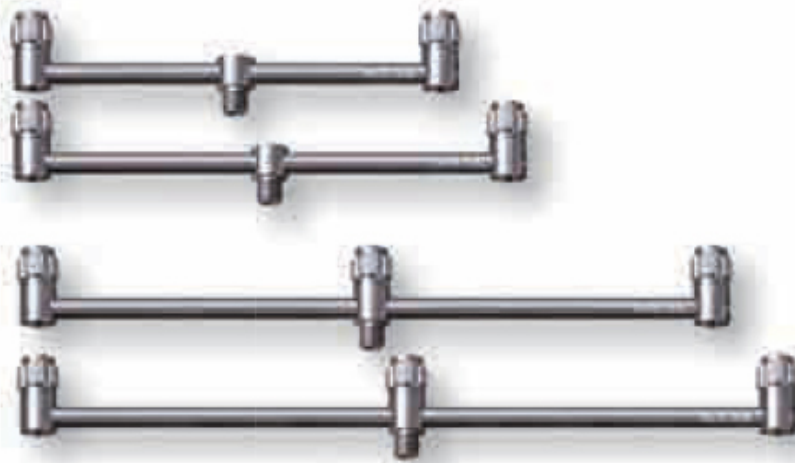

P1 Loc-Down Adaptor and Buzzer Bar Blanking Cap

- Protects male and female buzzer bar threads when not in use
- Designed with 3/8 BSF thread to fit with most alarms, back rests etc

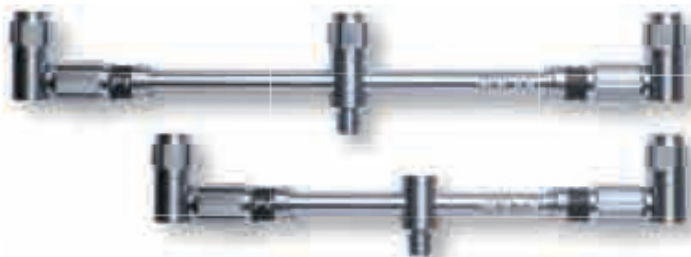

P1 Snap-Loc Kit-Off Adaptor

- Enables swift assembly and disassembly of buzzer bar and bankstick set-ups
- Precision engineered in the UK
- Sure-fit, 5-spoke knurled locking collars for perfect alignment of alarms and back rests
- Designed with 3/8 BSF thread to fit with most alarms, back rests etc

P1 2 and 3-Rod Fixed Buzzer Bars

- Precision engineered in the UK
- Machined solid Stainless Steel bar
- Sure-fit, 5-spoke knurled locking collars for perfect alignment of alarms and back rests
- Designed with 3/8 BSF thread to fit with most banksticks
- High-grade Stainless Steel
- Iconic design
- Lightweight
- Will last a lifetime
- Rock solid set-up

P1 2 and 3-Rod Adjustable Buzzer Bars

- Iconic design
- Precision engineered in the UK
- Profiled extension bar to eliminate twist
- Machined solid Stainless Steel bar
- Sure-fit, 5-spoke knurled locking collars for perfect alignment of alarms and back rests
- Designed with 3/8 BSF thread to fit with most banksticks
- Will last a lifetime
- Rock solid set-up
- Solar Taper-loc™ adjustment
- Carbon detailing
- Will not tip

Pro-Loc Anti-Twist Banksticks

- Eliminates buzzer bar twist
- The first of its kind
- Precision engineered in the UK
- Profiled insert to eliminate twist
- Ground Driver point for hard ground twist
- Quick and easy height adjustment via the 5-spoke knurled collar
- High-grade Stainless Steel
- Weight: 0.2kg onwards

P1 Travellite Bankstick

- The 'industry standard'
- Precision engineered in the UK
- Compatible with all common back rests, bite alarms etc
- Ground Driver point for hard ground twist
- Quick and easy height adjustment via the 5-spoke knurled collar
- Lightweight

- Includes FREE colour coded locking ring which sits under your alarms or back rests

Lock&Load Indicator End Caps - Set of 2

- Part of the Solar System, enabling you to design the bespoke indication system of your choice.

Solar Mainlines

South Westerly UniLine Mono

- High power universal mainline mono
- Super Strength, durability & abrasion resistance

A reduced diameter, super-high-strength monofilament with a supple feel that doesn't cost the earth. It will cope with the harshest of conditions; through weed or over rough lake beds. The clear finish makes it virtually undetectable to wary fish.

SP C-Tech Mile High Mono

- Ultra Long Range Casting Mainline Monofilament
- Highest Strength, durability & abrasion resistance multi layered construction

The material used in the construction of SP C-Tech Mile High mono is unbelievably strong and offers the highest in diameter-to-breaking-strain ratios with exceptional toughness and durability. Tied with a good technical knot, such as a Palomar, line diameters can be stepped down which delivers the greatest advantage for straight-through, extreme distance fishing. Picking the right diameter to lead size will give you that massive advantage in improved casting distance without the use of leaders.

Our UV Deflect coating provides UV resistance. This prolongs the line's life and reduces wear, meaning strength is not lost over time and knots bed in better, while the Direct Connect Core delivers the lower stretch and high strength this product is known for.

Diameter	0.31mm	0.34mm	0.36mm	0.40mm
Stated B.S.	11lb/5kg	14lb/6.35kg	17lb/7.71lb	20lb/9.07kg

South Westerly BulletProof Mono

- High power mono for use in harsh environments with heavy weed and rocky bars
- Super Durable, extreme abrasion & reliability

Bulletproof is a monofilament developed to be the most reliable there is. The X-Tuff construction makes it best in class when handling the most savage obstacles a lakebed can throw up, from razor sharp, stony bars to mussel-clad weed. Using Bulletproof will boost any angler's confidence when landing fish and will remove that doubt that can be present with other lines.

The Bulletproof construction includes a slick finish that lowers wear and tear and slows UV degradation, while the inner construction increases suppleness and it sinks, fast!

SP Spod & Marker Braid

- Ultra long casting spod & marker braid
- Anti Windknot Coating

Solar Spod & Marker Braid comes in 2 sizes; 20lb super-low diameter for use with a shock leader where anglers want to hit extreme ranges and a 30lb version for hassle-free, direct attachment of baiting and feature-finding devices (no leaders necessary). The Hi-Vis Neon Green finish allows you to follow your line out on the cast for better accuracy and our special, surface coating reduces the chance of wind knots.

Diameter	0.32mm	0.35mm	0.39mm
Stated B.S.	12lb/5.45kg	15lb/6.8kg	18lb/8.16kg
Achievable B.S.	18lb/8.16kg	21lb/9.5kg	28lb/12.7kg

Hooks & Rig Tools

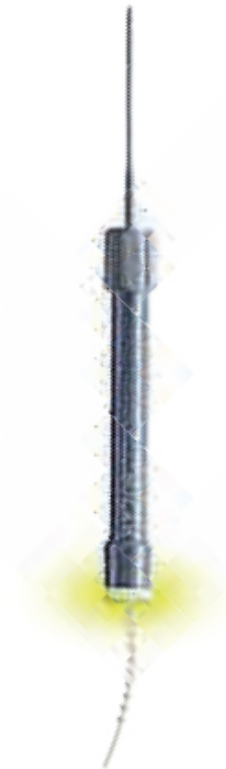

Stronghold 101

- The ultimate carp hook!
- Mute Camo finish
- Razor sharp
- Incredibly strong
- Perfect for most rigs
- Adopted by many leading anglers as their 'go to' snag/Continental hook

Stronghold Longshank

- Optimum anti-eject properties
- Mute Camo finish
- Razor sharp
- Incredibly strong

P1 Boilie and Stop Needle

- Strong, Stainless needle with safety barb
- Solar's 5 Spoke, Diamond Grip
- Refillable bait stop dispenser
- Nite-Glo bait stop dispenser for easy location in the dark
- Stainless Steel construction
- CAD designed
- Replaceable needle
- Built for reliability and a lifetime of use, like all Solar products

Serrated Blade Scissors

- Seriously sharp scissors with serrated blades that cut cleanly through all braids, monofilaments and fluorocarbons
- They keep their sharpness for eons
- Large enough to accommodate the biggest hands, yet small enough to fit easily into your tackle box
- Laser-etched Solar logo on the blade
- The bright orange handle makes them easy to find in your tackle box or bivy
- Supplied with a protective, plastic sheath

Rig Cone Tool

- The perfect tool for precision-shaping shrink tube and chod rigs while keeping your fingers safe. Holds hooks of all sizes
- The diameter tapers from 10mm to 35mm, so you can perfectly form anything from tiny lengths of shrink tube right through to Wither and Chod Rigs
- Removable handle, which doubles as a knot testing tool. The only one of its kind available

Hair Gauge Tool

- Ensures you get the perfect hair length every time you tie a rig
- Measures hairs from 10mm to 40mm
- Printed on both sides for ease of use for both right and left-handed anglers

Boilie Needle

- The most versatile available
- Easily penetrates even the hardest baits
- Can be used on baits as small as 10mm without splitting
- Features our boilie-stop dispenser (a Solar first)
- Quick and easy to fit with all of Solar's spare needles and drills
- Easy-grip, contoured handle is available in 2 hi-viz colours and a glow-in-the-dark option

Spare Boilie Needle

Spare Maggot Needle

Spare Nut Drill

Spare Stick Needle

Micro and Small Splicing Needles

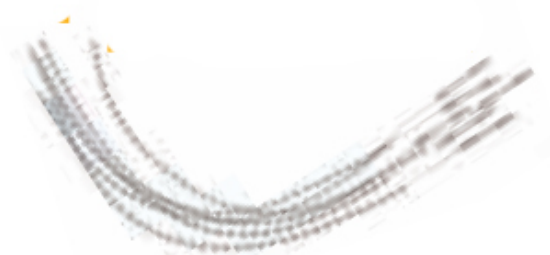

- Strong, fine, gate-latch needles for splicing leadcore
- Two thicknesses of needle available, micro and small,
- Both feature an easy-grip handle to make splicing any material easy. Two needles per pack

Boilie Needle Spare Set of Tools

- A boilie needle, a fine maggot needle, a PVA stick/stringer needle and a fine nut drill
- The baiting tool for ANY job!

Boilie Stops

- Refills for the boilie stop dispensers in our Boilie Needles

The Small Print

Monday to Thursday 8am - 5pm (GMT)

Friday 8am-4pm (GMT)

The office is closed on Saturdays & Sundays

Carriage

Carriage and pricing for delivery remains account specific and agreed with your Solar Account Manager.

Any additional charges incurred by Solar Tackle for carriage raising from issues from the customer's side will be re-charged to the customer. These include but are not limited to refused delivery, driver waiting to unload, delivery re-directed to a different address etc. If any specific delivery instructions are required these MUST be specified when placing an order. This includes, but is not limited to, a requirement for a tail-lift delivery, specific delivery times, specific packing instructions etc. Any carriage, admin and handling charges for returned stock are the responsibility of the customer and not Solar Tackle. These will be re-charged to the customer in the event that Solar Tackle is charged.

Payment Methods

- BACS (call for details. Solar Tackle Limited's bank details are stated on all invoices)
- Credit/Debit Card
- Cheque (addressed to 'Solar Tackle Limited')
- Direct Debit (call or e-mail for details)

**Trade Website**

Solar Tackle has a trade website where you can check product information, images and stock availability and create and place your trade orders 24/7.

If you do not already have an account on our trade website then you can apply online using the link at the bottom of the page at www.solartackletrade.com.

Alternatively, you can e-mail sales@solartackle.co.uk with your shop name and request that an online account be set up for you.

**POS**

Solar Tackle can provide Point Of Sale items to aid the display, promotion and sales of our products in your store.

For these items and any other promotional items or information you require please e-mail sales@solartackle.co.uk or call +44 (0) 1322 277345

Prices

The price(s) are given in good faith to the Retailer and are those ruling at the time of Solar's latest publicised pricing schedule. All prices are subject to market fluctuations and revisions and the actual price(s) to be paid by the Buyer shall be the Seller price ruling at the date of dispatch.

The company does not operate on a sale or return basis.

PLEASE NOTE: Trade packs cannot be split.

Payment

Where credit terms have been agreed, invoices are to be paid in full within 30 days of the date of invoice.

If amounts are paid into the wrong bank account (i.e. not to the account stated on the order invoice), then all incurred fees and charges will be recharged to the customer.

Overdue Accounts

The company reserves the right to take whatever action is deemed necessary within law to recover the outstanding amounts. The Buyer will be responsible for all costs incurred in recovering outstanding, or non, payments. All overdue accounts will incur a 2% cumulative surcharge for each month the amount is unpaid. This action will commence 60 days from the date of invoice.

Dishonoured Cheques

A surcharge of £15 +VAT will be made if a cheque, standing order or banker's order fails to clear the customer's bank account on each occasion.

Claims

No liability is accepted for any claims for short delivery or damage unless notified to us within 24 hours of delivery and in the event of damage, the delivery documents must be endorsed accordingly.

Consequential Loss

The Seller shall not, in any event, be liable to the Buyer for any indirect or consequential loss or damage.

Warranties

Solar cannot accept any liability whatsoever in respect of the usage to which the goods are put. The customer and any user should accordingly take all such steps to satisfy themselves of the suitability of the goods.

Returns

Goods being returned must have a completed Solar Tackle Returns Form with them - NO RETURNS WILL BE ACCEPTED IF SENT WITHOUT A COMPLETED RETURNS FORM. A Returns Form can be requested from Solar Tackle head office via phone or e-mail or from your Solar Tackle account manager.

Do not include orders or cheques in returned parcels. Goods accepted as faulty due to manufacture or material fault will be replaced or a credit note issued once inspected at Solar Tackle's headquarters. Any customer claim should, in the first instance, be referred to the original retail vendor who is responsible for resolving the claim with the customer. This does not affect a consumer's statutory rights.

A retail vendor who promises a refund, or to replace an item, before it has been examined by Solar Tackle does so at their own risk.

Retention Of Title

The Seller and the Buyer expressly agree that until the Seller has been paid in full for the goods comprised in this, or any other, contract between them:

- 1: The goods comprised in this contract remain the property of Solar (although the risk therein passes to the Buyer when the goods are delivered to the Buyer).
- 2: Solar may recover those goods at any time from the Buyer in his possession if the amount outstanding from the Buyer to the Seller in respect of goods supplied shall remain unpaid after the due date for the payment has passed; and for that purpose the Seller, his servants or agents may enter upon any land or building upon which the goods are situated.
